Birth of a Legend

BY ANNIM — 2024-07-15

For a long time it was thought that the 9th art¹ was a 20th century invention. Great was our surprise when 3DX archaeologist **AnniM** uncovered an ancient Roman parchment proving this form of story telling greatly predates our modern times. We are proud to present this historical discovery in a two part series.

With special thanks to Ancient Rome Sex, a role playing room at 3DX by MrFuck.
