Greenwoods Retreats

by JemimaSilky and MarcOrpheus

JemimaSilky has been a household name in the 3DX builder community for many years. *Greenwood Retreats* is a collaboration between Jemima and her husband *MarcOrpheus*. Based on the concept of [Cloud Atlas¹](https://en.wikipedia.org/wiki/Cloud_Atlas_(film)), it is set in a post apocalyptic time, after societies have once again rebuilt. It is one of the largest usable maps in 3dx, with 2 event spaces and many hangout spots, built to the highest standards. Greenwood Retreats is open 24/7 so keep an eye out for it next time you are online.
