Witches Cove

by Hecate

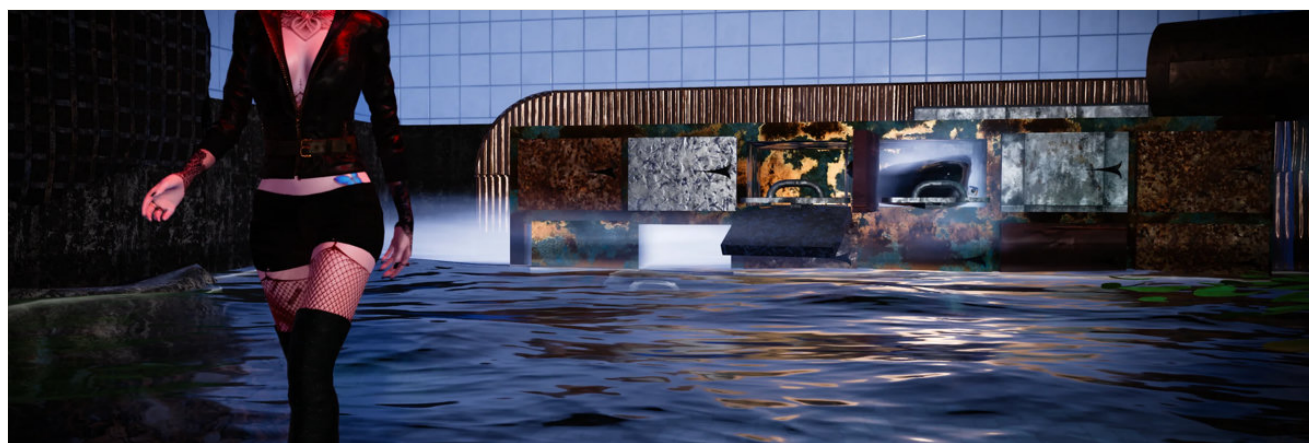

Witches Cove is a room built for exploration, subtle dates and role playing. Builder *Hecate* has been passionately working on this enormous place for the past year and a half. Expansive nature and forests comprise most of this fairy tale place. For you to discover are little gems such as a fortune tellers hut, the giant's causeway, a graveyard and many more hidden attractions. There is a definite Wiccan/goth vibe to different areas on this map that will appeal to lovers of the genre. Yes, even a beach was not forgotten and beneath a starry evening sky nobody has to fear ruining that perfectly pale complexion! The beach conveniently leads to a few clubbing areas.

The mine is one of the oldest parts of the build and harks back to the original idea for the room. The witches' shop provides a surreal view of a sprawling galaxy behind a viewport that feels like it is a window into another dimension. Mushrooms dominate the caverns of the mine. Be sure not to step on one and be careful which ones you eat!

The first screenshot shows a snowy forest scene with a wooden sign that reads 'HAPPY TALE FOREST'. A character in a red cloak is visible in the background. The second screenshot shows a small, snow-covered cabin with a red door and a window. The third screenshot shows a character in a red cloak standing next to a large, glowing orange light source, possibly a fire or a lantern, in a dark, snowy forest.

This area also houses the *insanity club*, the wildest party area you are likely to encounter. If you suffer from vertigo you may want to keep out of this one!
